

THE HUMAN SPONGE

1. The objective of the human control system is confuse and control, HAMPER and stealthily seriously ENCUMBER the human being
2. The prime mechanisms are through toxicity, the sources of which are myriad, quite literally, including everything from FOOD, WATER, AIR and SOIL (remember the highly inefficient Biofuels) to the most diverse forms of harmful Electromagnetic Radiation
3. Toxicity in the incarnate, the human sponge, is particularly pronounced through the ingestion of chemicals, amongst which plastics which pervade society and, more recently, most nefariously, nanotech, and junk food which alters the cellular membrane structure making it less permeable and less flexible as well as the slow insidious seeping throughout the human sponge of HEAVY METALS, in particular MERCURY, the SECOND most TOXIC HEAVY METAL ON EARTH, which literally acts like a superglue on the tissues of the body once it has “settled in”, rendering all the tissues even less permeable and flexible. CHELATION is one of the few answers to this dire predicament which deprives the human being of his/her VITALITY and LONGEVITY, for it ever so SLOWY rids the body of the HEAVY METALS
4. The organs/tissues targeted by the human HAMPERING and CONTROL system are:
 - i. The organs/tissues which are genetically and energetically encumbered
 - ii. The over laden liver and lymphatic system
 - iii. The BRAIN, because of its connection to God through the pineal gland, thereby hampering MEDITATION and PRAYER, and because of the key role it plays in the PSYCHO-NEURO-IMMUNO-ENDOCRINE System, the DISTURBANCE of which wreaks HAVOC on the HUMAN INCARNATE (notice the sky-rocketing rise in homosexuality and lesbianism and the associated need for “gender counseling”, most likely due to both fluoride and the *wonderful* endocrine disruptors in morning showers), making disease expression a literal PLAYGROUND for the so-called “DIS-EASE MONGERING INDUSTRIES”
 - iv. The oral cavity which is the location *par excellence* for the execution of all sorts of haphazard techniques and the semi-permanent placement of all kinds of more or less toxic materials (mercury amalgams, for example, the second most toxic heavy metal in the world and those “titanium” implants, the minority of which being 100% titanium which nonetheless seem to “challenge” the immune system according to a recent study presented in Switzerland), including the insidiously deadly root canals which are still in vogue, something which guarantees the gradual but sure HAMPERING and ENCUMBERING of the population through a panoply of all sorts of juicy diseases which “nourish” the “health-care” industry
5. Toxicity accumulates primarily in the regions and organs cited in point 4 with denser tissues like bones being the most difficult to DISENCUMBER. The BRAIN is MOST difficult to ENLIGHTEN, in particular when it comes to HEAVY METALS, for it has a semi-permeable membrane which acts as a LITERAL BARRIER to any effort to DETOXIFY it. The result is acute, sub-acute, and chronic INFLAMMATION and

INFECTION/INFESTATION in the midst of an ORGANIC TOXIC SOUP which leads to relative suffering of the individual, particularly in the AUTIST, whose suffering must be INCONCEIVABLE with pharmaceuticals essentially geared to CAMOUFLAGE the PURE PAIN and SUFFERING, something which, to the common observer, potentially comes across as DESPONDENCY. The BRAIN is the IDEAL PALYGROUND for so-called LYMES Disease, the most lethal variation of which was born in Labs as can readily be ascertained through investigation on the internet.

6. The oft ABJECT Dis-EASE MONGERING INDUSTRIES, sometimes more or less inadvertently due to the lack of consciousness and the HYPER-FOCUSING on PROFIT in this world of ours, then pretend to resolve the issues by SUBDUING and SUPPRESSING them, a mechanism which ultimately leads, over TIME, stealthily, but surely, to the further EMCUMBERING of the increasingly less Divine Human Being with the EXPRESSION of one or more of a PLETHORA of Dis-EASES, that is, to the point where the Human Being is SO, SO, SO COMPROMISED that even the Divine cannot properly recognize him or her, so wayward and forlorn are either his or her EXPRESSION and ACTIONS.
7. Women have been the most targeted of the sexes for they are appropriately deemed the most dangerous to the System's prevalence, for they provide the greatest potential for DIVINE HARMONY with humanity, GAIA and the Universe through their natural connection to Nature and GOD. It is little wonder that WOMEN are the ones who have to take ORAL CONTRACEPTIVES which HAMPER beyond belief, stealthily so, albeit for a "noble" objective, that of "family planning" and uncompromising sexual, oft not so amorous, encounters. It is thus that the Human Control SYSTEM has set its focus on HER in particular, with the endocrine disruptors in the FOOD, AIR, EARTH and WATER playing a PIVOTAL role in causing their imbalance. AFTER STEALTHILY EXHAUSTING and DISTURBING their PHSYCHO-NEURO-IMMUNO-ENDOCRINE Systems for decades, they end up ingesting Anti-Depressants and similar disappointing junk which was never contemplated by DIVINE NATURE, for ALL are quite literally ALIEN to the human body, but they certainly do make for unholy manna for the so-called INDUSTRIES which wish mankind so well, consciously or not.
8. As long as MONEY, instead of LOVE and CARE remain the PRIME OBJECTIVE of this System, DIVINE TRUTH shall not prevail and shall remain evasive at best, but, THANK GOD our FATHER IN HEAVEN, the CONECEPT of MONEY and COMPETITION shall soon be REPLACED by the DIVINE CONCEPT of LOVE, CARE and COMPLETION for ONE ANOTHER and for ALL, a concept which shall PERMANENTLY usher in the DIVINE INFUSION and IMMERSION of LOVE, JOY, HARMONY and RESPECT for ONE ANOTHER and for ALL.
9. The essential and ground breaking solution, a solution at a basic PHYSICAL level, besides embracing TRUTH and a COMPLETELY DIFFERENT LIFE-STYLE, entails DISENCUMBERING the Human Sponge by seeking recourse to various methods, amongst which, most notably, the A.Moritz "Liver and Gall Bladder Flush" which eminently helps the toxically OVER LADEN human sponge system RID itself, quite literally, in a very privileged manner, of all the over-burdening EMOTIONS and TOXINS, basically ALL the accumulated over-taxing HUBRIS of a

LIFE-TIME of STEALTHY and INSIDIOUS HAMPERING and ENCUMERING of the PHYSICAL and META-PHYSICAL. It is a PRIVILEGED method because it avoids the HUBRIS from actually entering the lymphatic system and circulatory system in a meaningful manner which one would otherwise OVER-BURDEN, despite the system's best efforts to DULL the MIND and generally DUMB DOWN, the average MUGGLE (see the first Harry Potter movie), sorry, HUMAN BEING.
